

## September 7 – St. Ignace MI

Another beautiful day invited us for a walk on the National Scenic Trail in the nation, the [North Country Trail](#). Again the dogs had a great time running and swimming. They so enjoy the freedom of open trail and no leash.

We went to the Mackinaw City side of the bridge and enjoyed the drive. The lakes were calm and so blue, outstanding. After running some errands and window shopping on main street we crossed back to the St. Ignace side, returned to the RV and gave the dogs a much-needed bath. We went to the [Mackinac Bar and Grill](#) for dinner. The patio offers a great view of the lake and the lighthouse. After dinner we walked out to the lighthouse for our final evening in St. Ignace.

I am cross stitching a picture of two mallards. The head and eye of one of the ducks is visible.
