

## September 9 – Niagara Falls NY

Today was a six-hour drive, the longest drive for the trip. We skirted Lake Erie and since we did not get away until almost 10:00 AM, it felt like a long day and we were all ready to relax at the RV for the evening.

We gathered our passports, and vaccination records, downloaded the App for the border crossing. Then we made our plans for our time here. Last week we booked a tour, [Journey Behind Niagara Falls](#) for Sunday morning and dinner reservations at [Skylon Tower](#) on Saturday, both are on the Canadian side.
